

“MAIN ROAD “ MEANS: THE PAVED COUNTY/CITY MAINTAINED ROAD.

“MAIN ROAD” DOES NOT INCLUDE DRIVEWAYS.

Concrete trucks are very heavy and can cause damage to both yards and existing driveways. We at A Little Concrete do not want to damage your property. Fortunately there are many available methods for transporting concrete from the main road to any point on your property without use of the concrete truck.

Here are some examples of projects that should have NO answers:

- Any project located in the backyard
- Any project located in the side yard

Here are some examples of projects that should have YES answers:

- Removal and replacement of entire driveways.
- Removal and replacement of driveway sections at the main road
